

Loo

Rough seas, a hot Spanish wind, and nature

Step into the studio at KAAT, you will see a big sailing ship' and a white sandy beach. Then in front of your seat, a hot Spanish wind blows over a stormy sea in a fantastic world where a ship is tossed between the waves in beautiful scenes superbly created by amazing lighting effects.

Not only children, but adults, too, will have their breath taken away by the experience.

"Loo" had its world premiere at Spain' s famous Festival El Més Petit De Tot children' s theatre festival in Barcelona in 2015. Now, though, audiences in Yokohama can also marvel at this work by the Ponten Pie Company directed by its Spanish founder, Sergi Ots, who especially created "Loo" to give youngsters who may never have been to a theatre a powerful first taste of its magic.

So why not come along to KAAT' s studio to share in this special Spanish sailing adventure together.
